Functionalities of the platform

Accelerate

Connecting users from the supply-demand-finance triangle of innovation transport and mobility solutions

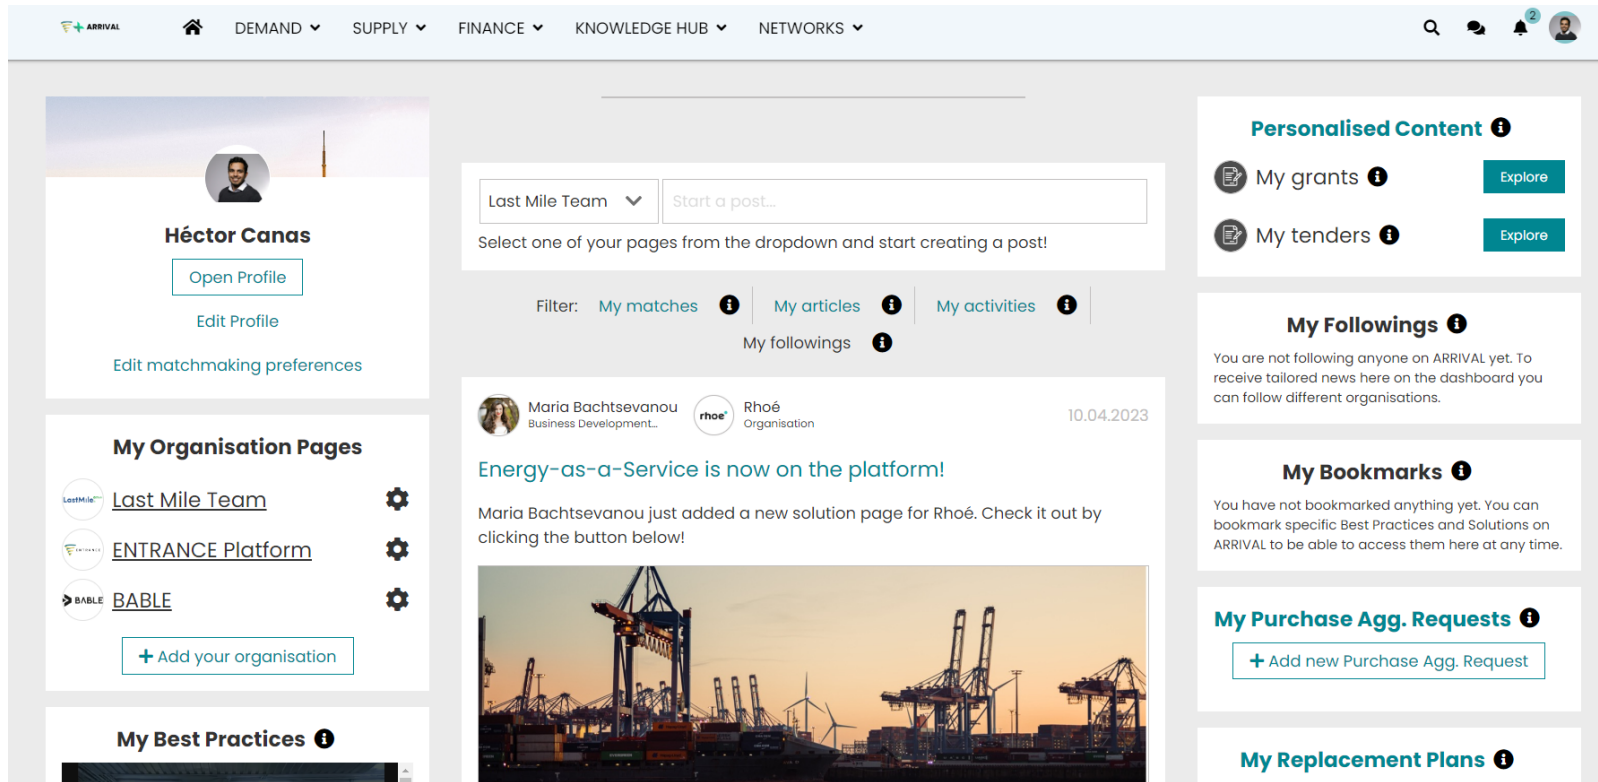

Empower

Empowering users through a comprehensive and exhaustive **Knowledge Hub**

How to use the platform?

Short Tutorial

The screenshot shows the ARRIVAL platform dashboard. At the top, there's a navigation bar with tabs for DEMAND, SUPPLY, FINANCE, KNOWLEDGE HUB, and NETWORKS. The user profile for Héctor Canas is visible on the left, with options to Open Profile, Edit Profile, and Edit matchmaking preferences. Below this, there's a section for My Organisation Pages, listing Last Mile Team, ENTRANCE Platform, and BABLE, with an option to Add your organisation. The main content area features a post from Maria Bachtsevanou of Rhoé Organisation, dated 10.04.2023, titled "Energy-as-a-Service is now on the platform!". The post includes a description and a photo of a port with cranes. On the right, there's a sidebar with sections for Personalised Content (My grants, My tenders), My Followings, My Bookmarks, My Purchase Agg. Requests, and My Replacement Plans.
